Collaborative Learning on Thrombosis

Anticoagulation in 2017: Concepts of Care for Primary Care Providers

Saturday, April 29, 2017
8:00 a.m. – 1:00 p.m.
The Winston Golf Club
(formerly Calgary Elks Golf Club)
2502 - 6 Street NE
Calgary, AB

Register online: www.eply.com/CalgaryCLOTWorkshop2017

Registration fee - \$75.00/per person

Registration deadline Monday, April 17, 2017

* space is limited*

For more information email: CLOTpharmacists@gmail.com

CLOT initiatives are sponsored through unrestricted grants by the following industry sponsors: Bayer, Boehringer Ingelheim, Britsol Myers Squibb, Leo Pharma, Pfizer, Sanofi

CLOT Members

Jennifer Bolt, BScPharm, ACPR, PharmD
Clinical Pharmacist Specialist, Geriatrics
Seniors Health & Wellness Centre
Kelowna, BC

Cindy Jones, BScPharm
Site Lead Pharmacist/AMS Co-Ordinator
Athabasca Healthcare Centre, AHS

Darcy Lamb BSP, ACPR, MSc
Clinical Co-ordinator Pharmacy Services
Saskatoon Health Region

Jennifer Lowerison, BScPharm, PharmD
Clinical Practice Leader, Program Liaison
Calgary Zone Anticoagulation Management Services, AHS

Wm. Semchuk, MSc, PharmD, FCSHP
Manager, Pharmacy Practice
Regina Qu'Appelle Health Region

Peter Thomson, BScPharm, PharmD
Clinical Resource Pharmacist
Winnipeg Regional Health Authority

Tammy Bungard, BSP, PharmD
AMS Program Director, Associate Professor of Medicine
University of Alberta

Cynthia Brocklebank, PharmD, ACPR
Manager, Pharmacy Services
Alberta Health Services

Linda A. Sulz, BSP, PharmD
Pharmacy Manager, Strategic Initiatives, Outpatient & Antimicrobial
Services, Regina Qu'Appelle Health Region

Background

The Collaborative Learning on Thrombosis (CLOT) group consists of pharmacists from the Prairie Provinces with an interest or practice in the management of thrombosis/anticoagulation therapies. It provides a forum to network and gain expertise to facilitate knowledge transfer to other pharmacists and healthcare practitioners to optimize the care of patients with thromboembolic disease.

Primary Health Care providers such as community pharmacists, nurse practitioners and family physicians are some of the most accessible healthcare professionals. With evolving roles and scopes of practice, taking a proactive role in managing medications has become more important. Anticoagulation management is a good example of this evolution with more providers involved in both monitoring and managing anticoagulation care. Much has changed over the past decade. Warfarin and low molecular weight heparins still have a place in care for many patients, and several novel oral anticoagulants (NOACs) are now available for use in the prevention of stroke for atrial fibrillation (AF) and the acute treatment/prevention of recurrent venous thromboembolism (VTE). With the plethora of data, primary health care providers are well situated to ensure appropriate selection and ongoing monitoring of these agents.

This learning event will utilize case vignettes to provide up to date information on anticoagulation therapies covering common thrombosis topics relevant to a community-based primary care practice.

Symposium Schedule

AGENDA

- | | |
|------------|--|
| 8:00 a.m. | Registration
Continental Breakfast |
| 8:30 a.m. | Opening Remarks |
| 8:40 a.m. | Anticoagulation Appetizer |
| 9:10 a.m. | Current Concepts in Venous
Thromboembolism Treatment |
| 9:40 a.m. | Atrial Fibrillation and Pharmacist
Management Considerations |
| 10:10 a.m. | Anticoagulation Tools and Tips to
help you in your Community
Practice: A Rural Perspective |
| 10:40 a.m. | Break
Refreshments will be available at the scheduled break. |
| 11:10 a.m. | Treatment Transitions: The What,
Why, When, and How of Switching
and Interrupting NOAC therapy |
| 11:40 a.m. | Bleeding and Reversal with
Anticoagulants |
| 12:10 p.m. | Question and Answers |
| 12:40 p.m. | Program Evaluation |
